

# **Accuracy of Measurements is a Guarantee of Fair Business**

**VIS  
(WEIGHT-MEASURING  
SYSTEMS)**

**12 years of great work**

## **ABOUT COMPANY**

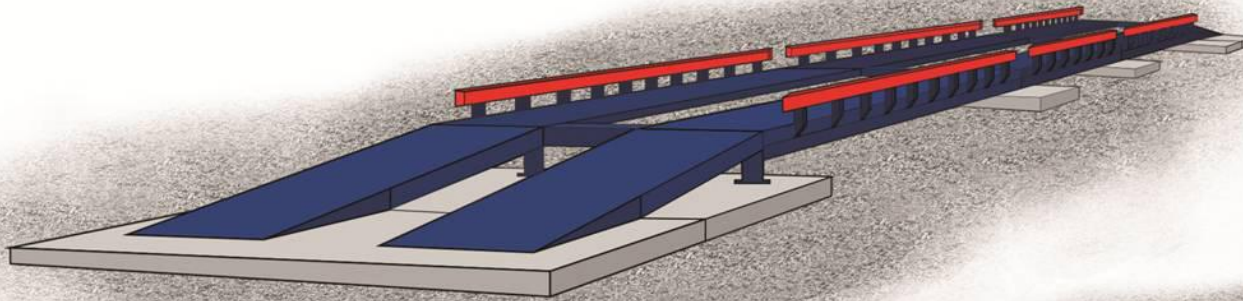

- Year of foundation: **2006**
- Location: **29 Slobozhanskiy avenue, Dnipro, Ukraine**
- Industry: **production and installation of the weight equipment**
- Staff: **230 employees**
- Floor spaces: **2 000 sq.m**
- Output: **more than 280 tons/month = 35 sets of scales/month**

**With us you will find what others do not have!**

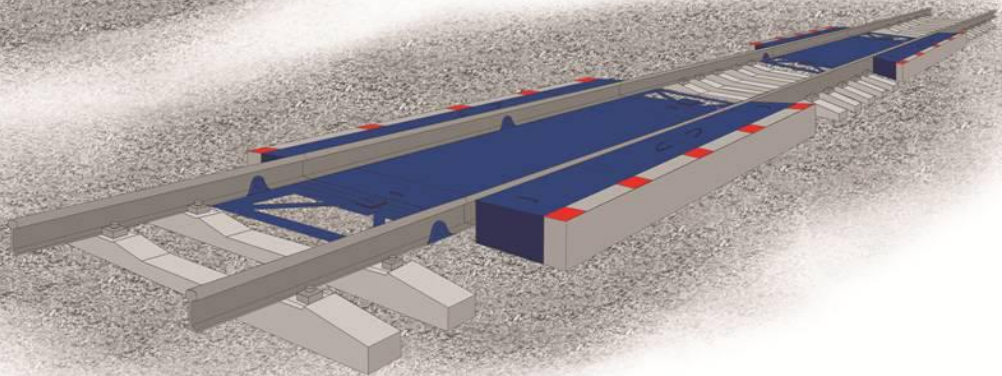

# ▶ PRODUCTS

▲ Car scales

▲ Rail scales

# ▶ PRODUCTS

▲ For front loader

▲ Conveyor belt scales

▲ Bunker and batchers

# ▶ PRODUCTS

▲ Commodity scales

▲ Mobile axle weighing kit

▲ Pallet truck scales

▲ Platform scales

▲ Crane scales

▲ Scales for animals

## **OUR ADVANTAGES**

### **WE GUARANTEE THE ACCURACY OF MEASUREMENTS!**

- Long experience in development and production of the weight equipment
- Our scales are entered in the state register of means of the measuring equipment of Ukraine
- We successfully introduced more than 3400 sets of scales
- We have all allowing documents available
- We establish scales "on a turn-key basis"
- We cooperate with the largest companies of Ukraine
- Our customer service works 24 hours a day 7 days a week

## CERTIFICATES, PERMITS AND PATENTS

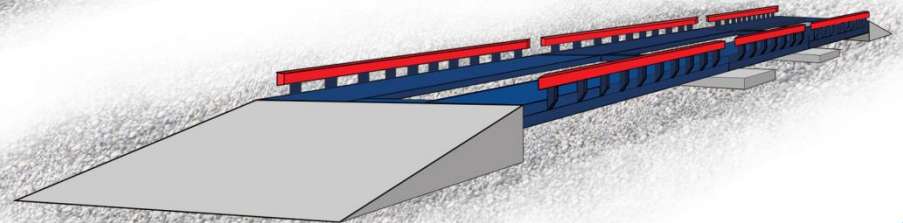

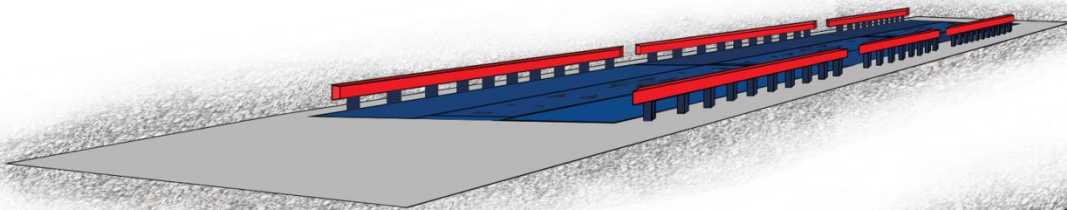

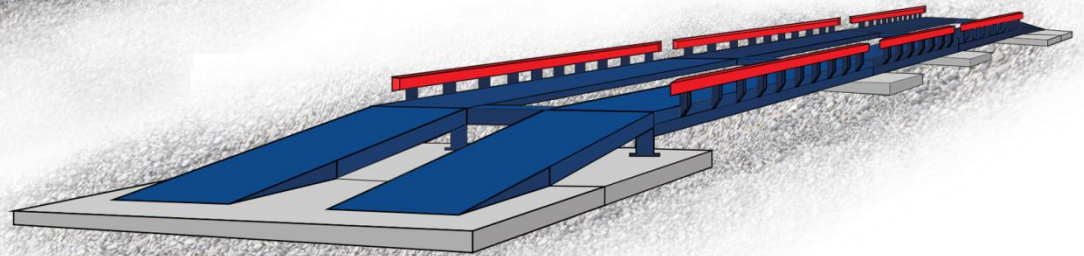

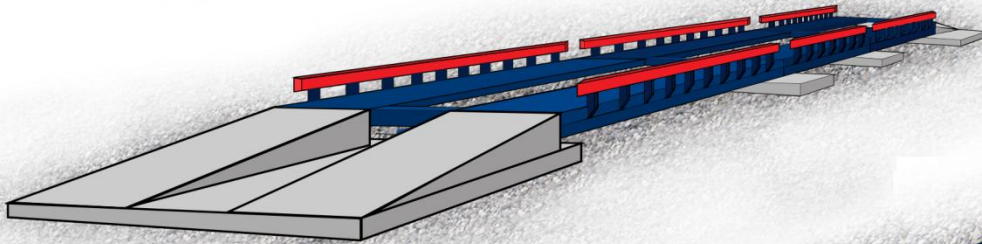

# ► PRODUCTION BASE

# ▶ VEHICLE SCALES

# ► DIGITAL WEIGHT INDICATOR

- **Metal case (protection IP65)**
- CPU- 32-bit ARM Cortex-M3 microcontroller
- 4-line LCD indicator
- Built-in battery 4 A/h with discharge control
- **4 digital inputs and 4 digital outputs**
- Interface RS-232/485
- USB 2.0
- Built-in non-volatile memory
- Continuous testing of sensors during operation
- Dustproof membrane keyboard
- Universal table / wall version
- **Ethernet**

# ► LOAD CELLS

Our company uses load cells of the leading global manufacturers!

# ► VARIANTS OF EXECUTION FOUNDATIONS

Prefabricated foundation with reinforced concrete ramps

## Prefabricated foundation with metal ramps

## Monolithic foundation of an overpass type

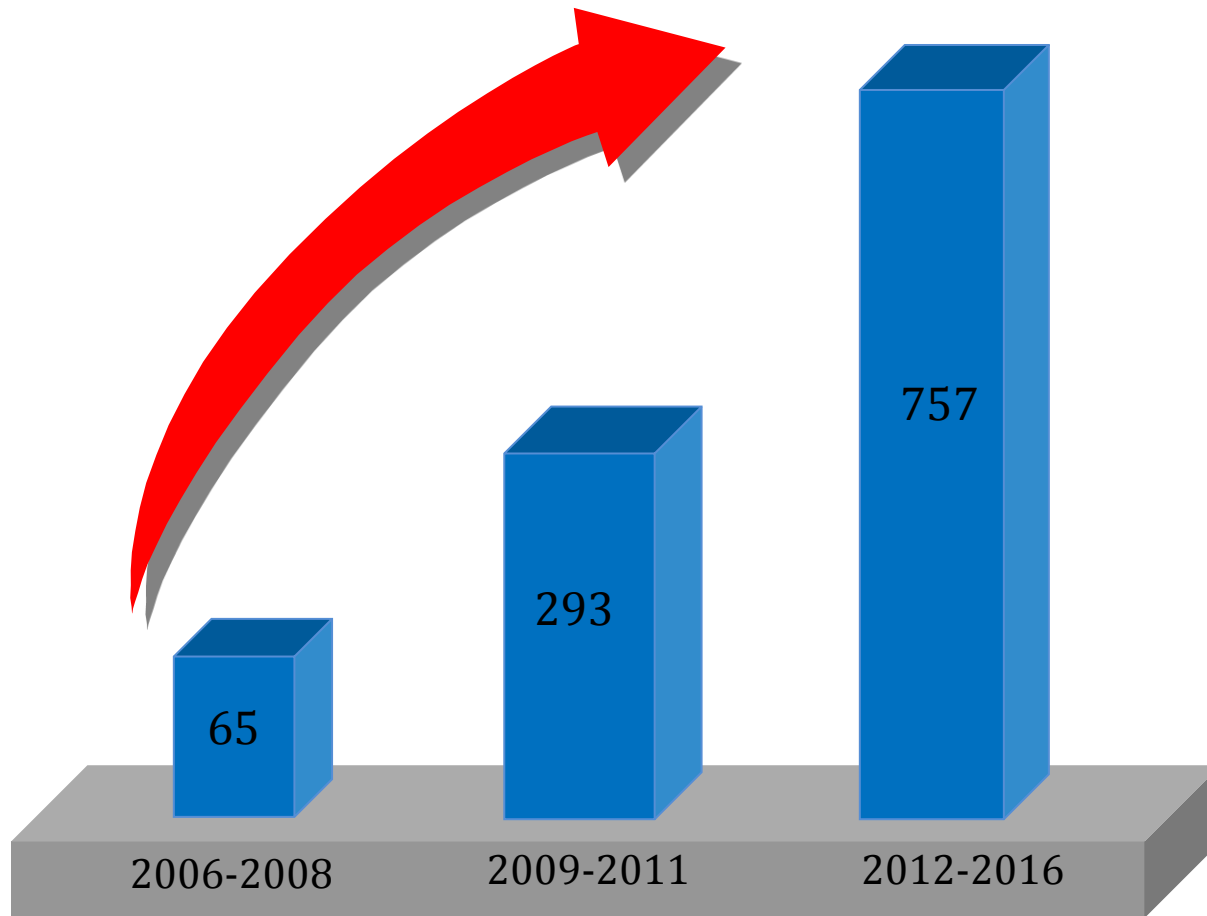

## Monolithic buried foundation

# VEHICLE SCALES: GROWTH OF PRODUCTION

# VEHICLE SCALES: LOCATIONS

Внедрено более 800 комплектов весов автомобильных

# RAIL SCALES

# Rail scales without foundation

## **Features and advantages:**

- ▶ installation of 24-28 hours;
- ▶ lack of concrete works;
- ▶ all modules of scales are delivered to the place in finished form;
- ▶ simple in installation.

# Rail scales on sleepers

## Features and advantages:

- ▶ installation of 2-3 days;
- ▶ lack of concrete works;
- ▶ simple in installation;
- ▶ possibility of fast transfer of scales to other place.

# Rail scales on combined reinforced concrete foundation

## Features and advantages:

- ▶ installation of 2-3 days;
- ▶ lack of concrete works;
- ▶ simple in installation;
- ▶ installation at all seasons of the year;
- ▶ possibility of fast transfer of scales to other place.

# Rail scales on the monolithic buried foundation

**This type of fundament is used in following cases:**

- ▶ High level of ground waters;
- ▶ Availability of collapsible soil in an installation site of scales.
